Attempt to aid Gaza in as many ways as possible, and do not vote for any resolution that calls HAMAS a terrorist group.	Support from the US is critical to Afghanistan's future, ensure that you have their help in solving domestic terrorism issues, while putting first the interests of the people. If possible, get the US/NATO to increase troops at the borders.		
Angola	José Eduardo dos Santos	President	Our country is currently in a weak state due to the recent end of the civil war and is easy prey to countries that may support terrorism such as Saudi Arabia, Syria, Libya, and Sudan. During the unmediated caucuses, discuss with the countries mentioned above about how they are dealing with the terrorism in their countries to get a look at where the groups may strike next.	Obtain help from other countries willing to aid UNICEF in handling the malnutrition and disease in your country	When creating a resolution, make sure that the fight against ISIS and Boko Haram will include the funding from your meeting with the other Central African leaders. This will help your alliance with not only the other leaders, but it will show other countries that you are willing to fund the fight against the terrorist militants.	During the conference, you must be wary of your alliance with Russia due to it's recently gained reputation. Insure that your alliance remains strong and that your country and your citizens, are safe.	During the conference, meet with your allies and trade partners to insure that they continue to trade with Angola. The goal is to validate that they will still be receiving oil from Angola.		
Australia	Tony Abbott	Prime Minister	Events like the Sydney hostage crisis cannot be allowed to happen again. There must be a resolution that supports the limitations imposed on potential terrorists. Ensure that no attacks similar to this one can happen again by increasing security and protection with resolutions.	Work to form a resolution that will increase the overall amount a nation must spend on homeland security. Don't permit the decrease of security, and make sure that there is only an increase in it. Limit the amount of foreign fighters being able to return to Western nations.	During resolution forming, make sure ISIS is labeled as a terrorist organization, and ensures that other nations support the advising of Kurdish forces.	Ensure that you refer to Hamas and Palestine as terrorists. If possible, form a resolution to deal with the terrorist organization. It is essential that Hamas is labeled as what it is, and there is no grey area regarding this issue.	It is necessary to keep the sanctions on Russia until they stop occupying Ukraine's land and to reinforce the fact that Ukraine has never done anything towards Russia before this issue.		
Chad	Idriss Deby	President	Convince other countries that Human Rights is a big factor in countries, as well as a general sense of knowing whether something is good and/or bad. You can also do this by drafting a resolution where human rights will be upheld in many countries that lack a fair amount of it.	While maintaining your image of a stable country, make sure to influence gender equality in surrounding religious countries	With the aid of other countries, gain military support to neutralize the Boko Haram in any areas that they may be inhabiting	With the aid of any neighboring country, try to gain funding for the building of refugee camp areas to send residents back to their countries of origin	Ask surrounding countries to be more wary and aware of its borders, as well as any suspicious behavior in children, and staying on top of human trafficking

We would like you to ensure that the passing resolution declares them as a terrorist organization.	We believe that in the Ukrain Crisis, it is important to remember that it was Ukran's Sovereignty that was breached. You must push for a resolution that supports the sanctions levied on Russia, and support Ukran in their struggle.					
China	Xi Jinping	President	Ensure that the East Turkistan Islamic Movement and Islamic Movement of Uzbekistan are labeled as extremist terrorist organizations, and expand the scope of force that is considered acceptable in quelling all terrorism (foreign or domestic), but maintain that foreign governments must work with the country that is being plagued by terrorists, not around them.	Pressure the US to redirect the military armaments/hardware shipments planned for Taiwan to a different country that will help quell terrorism.	You must clarify that HAMAS is in fact NOT a terrorist organization, and any resolution you vote for/endorse must in no way imply that they are.	Chinese citizens are leaving China to join ISIS. Death is the only possible response to such treachery, and it would be best if the rest of the world followed suit.	The Chinese government is considering getting involved in the fight against ISIS, but will need some benefit in exchange for your help.	It is very important to us that we make sure to quell the notion that the some of the Ukrainian Nationalists are not terrorists. They try to act, and should be classified as such. Numerous times, they have breached the sovereignty of Russia, and attempted to seize its lands. This is unacceptable for, and Russia must not only be able to defend themselves, but they should be able to do so without repercussions from the West. Your directive, delegate, is to convince the West to remove the sanctions that they have unfairly levied upon a country for defending itself.	
England	David William Camron	Prime Minister	Homegrown Terrorism -You need to, as the UK, propose more policies in regards to Jihadist that can maintain the situation better then just shunning them. ISIS recruits: Your job is to propose to the committee, to work more closely with airlines that serve Syria, Iraq, Somalia, and Nigeria to develop stricter controls on passengers using those routes. Many terrorist organizations run drug trafficking rings that fund many of their operations, and getting rid of them will help to reduce their overall funding. Your job is to propose an idea to help reduce the amount of drug trafficking		
France	François Hollande	President	Should the issue of refugees arise, you are to take a firm stance in opposition of taking in any immigrants. France simply does not have the resources or space necessary for it.	Should any counter-terrorism measures include the limitations of free speech, you are not to support it.	Support the U.S in their military efforts against ISIS, but do not militarize yourself. Military action is strictly follow-up only.	Try to get increased trading with other countries, as well as bring foreign business to France. Also, if any anti-terrorism forces or organizations are formed during the conference, try to make France a central player.	Propose methods of addressing terrorist recruitment methods, like social media.

In order to halt the flow of new recruits for terrorist organizations, urge all countries in the committee to enhance the security policies for their militaries. NZ's Dependence on Australian Economy: Although there is no possible way to control commodity prices, coming to a compromise with both China and Australia regarding suitable iron ore prices will alleviate the imposing threat of Australia's struggling economy to the recently stabilized Kiwi market.	As a nation who has now been threatened by ISIS, exercise your power to shut them down. This will include shutting off all of their connections, and building up your own defense against terrorists. ISIS: Aside from New Zealand's notoriously neutral stance, we believe we have an obligation to support the stability of the law both domestically and internationally. We have no intention of defeating ISIS through the Iraq army, and urge you not to form resolutions that intend to do so. New Zealand aims to stabilize the nation of Iraq, through developing industries such as agriculture. NOT by taking an aggressive approach to the already brutal situation.	Malaysia and China's relations appear to be growing stronger (as suggested by the first joint military exercises). During the committee, it would be wise to form an alliance with China, as that relation would offer numerous benefits. Along with the United States, China is a strong friend to have. Russia & Ukraine: A cease fire would be the initial step into the resolution of this bitter conflict, resulting in a clear line of contact from both parties. Your directive is to call on the delegate of Russia to use their Russian influence to urge both Russia and Pro-Russian separatists to fully respect a cease fire, and to be wary of all detainees. It is highly important you encourage your allies to assist in mediating the crisis, and provide the vital humanitarian aid.	The United States is a strong ally to have in the debate. Be sure to maintain your alliance with this country, as it will be in your best interest.

Russia needs to present new counter terrorism policy suggestions to the committee due to terrorism issues.	Israel/Palestine -Continue to support Palestine, and any resolution that you vote for/endorse must not directly or indirectly label HAMAS as a terrorist organization. Ukraine A ceasefire had been agreed by both sides. For the rebels, the new ceasefire line is the same as the old one, so they lose some of the territory they have gained. But government forces must pull back from the current front-line, and territory they have lost since January is confirmed as lost.	Russia/Ukraine: If this issue is brought up, abstain from forming an opinion. When voting on resolutions, support one that promotes peace between the countries. US and Russia financial sanctions United States has blacklisted dozens of senior Russian officials, separatist commanders and Russian firms accused of detouring Ukrainian sovereignty. Sanctions placed on Russia had taken a toll on Russia's economy. Due to the toll on Russia's economy, it's time to find new allies.
